

Summer Remediation Program – Dr. Olvera
Center for Educational Therapy (805) 556-0814

Our summer remediation program will begin on Monday, June 23rd and end Friday, August 1, 2008. We will be providing a variety of programs this summer to meet the needs of our diverse population. Dr. Olvera will be providing specialized assistance to improve cognitive, academic and social performance. The goal of this program is to reduce academic and cognitive gaps to attain grade level success when your student returns to school.

Each 50 minute session will intensely focus on how you learn and utilize specific remediation techniques and strategies based on specific, personal areas of need. Dr. Olvera will collaborate with your student's school and look at previous learning assessments to determining specific areas of remediation.

Because these sessions will be intensely focusing on specific learning skills, parents will be asked to allow the student one-on-one time with Dr. Olvera. Parent interviews and discussions related to other family concerns will need to be scheduled at times other than the remediation session times.

If you are being treated by a health care professional for ADHD, behavioral, emotional or academic concerns, Dr. Olvera will collaborate with him/her to provide pre and post information so that your doctor can be informed of progress or needs ascertained from her summer sessions.

Finally, our parents have asked for tutoring services, especially for their high school and college students taking courses over the summer. Therefore, Jose Olvera, a professional educational therapist will be providing his assistance during the intensive summer session. Many parents have asked for a session with Dr. Olvera to attain cognitive and academic remediation and a session with Jose for follow-up review. The following are a list of these services and costs for the 5 week program:

<u>Dr. Olvera's Package</u>	<u>Jose's Package</u>	<u>Package w both Dr. O & Jose</u>
One session per week = \$400	One session per week = \$150	One session wk \$500
Two sessions per week = \$700	Two sessions per week = \$300	Two sessions wk \$900
Three sessions per wk = \$900	Three sessions per wk = \$450	Three sessions wk \$1200

We offer these prices for the summer remediation sessions. These prices are guaranteed when prepaid at least one week prior to the beginning of the program. Missed appointments due to planned vacation and the 4hr of July holiday will only be rescheduled during the 5 week remediation session. The choice slots go quickly so, call early to make sure you are able to get the time and dates you need.

We are also offering a school year jump-start session starting about two weeks before school starts. The session will start August 10th and end August 22nd. This session will involve organizational strategies, planning and academic review. Tutoring will also be available during this timeframe.

New students enrolling for either session will need an initial intake assessment session lasting about 1- 1.5 hours to determine academic, behavioral and cognitive strengths and needs. Results of this assessment will provide information for your specific remediation program. Reduced cost is \$100 for this session.

ADHD assessment & follow-up are also offered this summer by Barbara Ramirez CPNP, MSN. She is a Certified Pediatric Nurse Practitioner and an expert on behavioral pediatrics. She will be offering one initial assessment of attentional and/or behavioral issues with two follow-up sessions scheduled at the beginning, middle and end of the 5 week intensive sessions. The reduced cost of this service will be \$200 for all three sessions. This is a savings of \$100. The first session will last about 1 hour and the two follow-up sessions will last about 30 minutes each. For those who have already received Barbara's services and who want follow-up summer sessions – the reduced cost will be \$150. Please call earl for appointments as we book quickly.
